

Create Engaging Instructional Videos

Project Title	Create Engaging Instructional Videos
Project Summary	Create engaging and inspiring instructional videos on educational software for language instructors.
Country	United States
Agency	Department of State
DoS Office	FSI/SLS/CSD
Post	N/A
Section	N/A
Number of Interns	1

Project Description

We need you to help us create short educational and inspirational videos on a variety of software, such as Microsoft Windows 10, Office 365, Adobe Captivate, Adobe Photoshop and Adobe Indesign. We need the videos to be each under 5 minutes, and we want a mix of inspirational "why using this software would help me," big picture "what is the overarching conceptual schema of this software," and detailed "how do I do X." The videos should stick as closely to the basics as possible, and should be written for a non-technical audience who may not be familiar with the software, but the videos must also take care not to be patronizing in tone.

Desired Skills Interests

Additional Information

You will need to provide your own video editing software and screen capture software. You must have access to the the software we need videos created for. If you use audio or graphics outside of the screen captures, you will need to use royalty-free materials. You must provide us with the source files and the final video files for each video.

Language Requirements

None
